## National Institutes of Health (NIH)

### Estimates of Funding for Various Diseases, Conditions, Research Areas

Table Updated February 5, 2008

This table displays funding levels for various diseases, conditions, and research areas, based on actual grants, contracts, research conducted at NIH, and other mechanisms of support in FY 2004 through FY 2007. The FY 2008 and FY 2009 figures are estimates, and are based on the FY 2007 levels, and the FY2008 current rate level, and the FY 2009 Budget.

Important Notes: The current year (FY 2008) and budget year (FY 2009) dollar amounts provided represent NIH's best estimate on what will be funded for the categories. The figures provided are not allocated or set aside for these categories. The table is not additive. Funding included in one area may also be included in other areas. For example, Clinical Research includes Clinical Trials.

Research/Disease Areas	FY 2004	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009
