

## Number of Men per 100 Women : Age 65+ by Country

Data compiled by the Men's Health Network : [www.menshealthnetwork.org](http://www.menshealthnetwork.org)

(Data provided by the U.S. Census Bureau, International Database, 2007 estimates.)

Considering that women outlive men in all but 9 of 221 countries where life expectancy statistics for both sexes are available, it is not surprising that there is a substantial gender gap in the aging population. The trend is consistent regardless of race or ethnicity and in both developed and underdeveloped countries. Worldwide, there are 78 men for every 100 women age 65 and above.
