MHN Partners with Astellas Pharma US and USA Rugby to Encourage Chicagoans to Answer the Challenge

(Washington, DC) – Men's Health Network (MHN) is excited to work in partnership with Astellas Pharma US, Inc. and USA Rugby to offer free community health screenings in Chicago. The health screening events will be hosted around the historic match between the USA Eagles and the World Champion New Zealand All Blacks rugby teams. The events will be offered near the Eagles' practice in University Village on Monday, Oct. 27th and at the Soldier Field Fan Zone before the Nov. 1st match.

"We are pleased to be working with Astellas to encourage Chicagoans to answer the challenge of achieving better health," said Ana Fadich, Men's Health Network Vice President. "Through these screenings, we can raise awareness and motivate individuals to understand their health risk and treatment options."

The first free screening event will be held from 3:00 P.M. to 7:00 P.M. (CST) on Oct. 27th at Quest Multisport, 2641 W. Harrison St., Chicago.

The second free screening event will be from 11:00 A.M. to 2:30 P.M. (CST) on Nov. 1st in the Fan Zone at the Southeast corner of the Soldier Field complex. Tickets are required to attend the rugby match, but you do not need a ticket to visit the screening area.
